

1. Now Service Provider can copy their experience from others service:

As per the new functionality, now service provider can copy their experience (Existing Service) into new service while uploading. Please check below step by step screenshot:

The screenshot displays the GeM (Government e Marketplace) website. The header features the GeM logo and navigation links: Dashboard, Market, Orders, Bids, Purchase Requisitions, Catalogue, and Apy karma. The main content area shows the 'Rohit Test Florist Final' page with a 'Deactivate the Offering' button. Below this, there are four sections: Description, Experience, Rate Sheet, and Certificates, each with a right arrow icon. A 'Validate & Save' button is located at the bottom of the main content area. The footer contains links for Web Info, About GEM, News & Events, Resources, and Training. A Google Chrome notification is visible in the bottom right corner.

The screenshot displays the GeM (Government e Marketplace) website interface. The top navigation bar includes links for 'Dashboard', 'Market', 'Orders', 'Bids', 'Purchase Requisitions', and 'Catalogue'. The main content area is titled 'Rohit Test Florist Final'. It features a 'Description' section with a 'Deactivate the Offering' button, an 'Experience' section with a link to 'Refer To This Link For Service Approval Process/SOP', and a 'Rate Sheet' section. The 'Experience' section includes a 'Project Details' table with columns for 'Project' and 'Choose Project'.
